The I Am Peace Project is Part of a global movement to stop bullying by raising awareness & promoting a more progressive society through the Arts , Education and Sports

- Classroom work is guided by variations of our outstanding course curriculum which is related to the film I AM JULIA...caught in the bully's lair. Students will have the opportunity to examine bullying and the different shades of violence in their surroundings, they learn to write short scripts and create films that tell their stories. Or if they choose, the students could also explore different solution to the conclusion of I AM JULIA and produce their own ending to the film.
- In addition, this work could also be accomplished through connecting with other disciplines: Such as with Theater, Dance, Music, Photography and Painting among other art forms.

The overwhelming presence of violent aggression in the educational system, an issue that has long been undermined has now come to light.

- We honor our partnerships with the Colombian Consulate - Project BOOST, all Public Schools in NY, NJ & CT and the communities that help them flourish.
- The program is adaptable to the needs of the schools & communities we serve. We welcome and encourage new alliances and community organizations in collaboration with us.

I am ?

- Students and educators will create their own production from start to finish and exploring themes such as Identity Issues, Aggression, Conflict-Resolution, Community Relations, Sustainable Development and Friendships.

- Let's construct a more peaceful & creative environment in our schools and our communities, then share it with the world!
